

DZ65N series Mini Circuit Breaker

APPLICATION

DZ65N MCB is an all new high performance current limiting device with the ability to disconnect short circuits of up to 10kA. It is the newest model in 21st century.

DZ65N MCB has many merits of high protective grade(up to Ip20),high breaking capacity, good reliability of sensitive action, convenient multi-pole assorting, long using life etc. They are mainly used for overload and short circuit protection within the circuit of AC 50Hz,230V in single pole,400V in double, three and four poles. Meanwhile, they are also used in turning on and the electric apparatus and lighting circuit under the normal condition.
